Cooper Racing...

It has been fifty years since Charles Cooper and his son John founded the Cooper racing name that was to become synonymous with the now famous Mini Cooper. Working from a small BMC garage in Surbiton, they initially designed and built the famous Formula III Cooper 500, the first racing car with a rear-mounted engine which went on to win many Championships with legendary names like Stirling Moss behind the wheel. The Cooper Car Company expanded through the late 1950s and early 1960s and continued to produce race winning cars.

The company consolidated and built on its early successes with Formula III, going on to be successful in Formula II and sports car racing before ultimately reaching the pinnacle of racing in Formula 1. With Jack Brabham driving, Cooper Cars won the World Championship twice – in 1959 and 1960. The era of the rear-engined racing car, pioneered by John Cooper, and the pedigree of the Cooper name, was established and has continued to grow.

Coopers had a very successful reputation in nearly every racing formula. It was not long before the racing potential of the re-engineered Mini was realised. With the blessing of Sir Alec Issigonis, the car was soon re-engineered for saloon car racing and rallying. The Mini Cooper was more successful than anyone would have thought possible, becoming the first British car to win the European Rally Championships while taking the chequered flag at the Monte Carlo Rally three times. The Cooper name was by then firmly and irrevocably linked to the Mini. It became an icon of the swinging sixties with film stars, royalty, pop and rock stars all clamoring to get their hands on this famous little car. BMC went on to produce 150,000 Mini Coopers until production finally ceased in 1971.

In the late 1980s, John Cooper Garages was supplying Cooper conversions kits to a new generation of Mini enthusiasts, especially in Japan. This clearly demonstrated that there was growing demand for a Mini Cooper with the same performance and style as the original.

Rover recognised the potential and expressed interest in the Mini Cooper's 'Renaissance'. John and Michael Cooper suggested that the Mini Cooper should be re-introduced for the 1990s.

John Cooper Garages worked alongside Rover to re-engineer the A series engine in a way which would justify its Cooper badge, first developing the 1275cc carburettor version and then the 1.3 injection model. The result of the Mini Cooper was an immediate success.

With S, and then S, Cooper accessories packs available from John Cooper Garages, followed by the introduction of a completely new Mini Cooper S, then Grand Prix Cooper S Touring and Sport S, the Mini Cooper S variants have been proved to be the fastest, biggest-selling cars in the world today.

Cooper S works

1999 marks the 40th Anniversary of the world's most famous and loveable car, that mischievous Mini! This year is also the 40th Anniversary of John Cooper's racing cars winning the Formula 1 World Championship, a triumph that was repeated in 1960 when Cooper won both the Driver's and Constructor's World Championships. To mark such a truly auspicious occasion, John Cooper Garages have produced their most exciting S ever – the 90bhp Cooper S Works – a celebration of the Cooper Works S Touring cars of the 1960s.

The new Cooper S Works not only emulates the characterful Works car of the 1960s, but provides luxury that really belongs to the next millennium. Like the Cooper S Works and Sport S, the S Works is based on the current Mini Cooper with all its modern safety features, including driver's seat and strengthened doors with side-impact beams. Owners of the new Cooper S Works will be joining a very exclusive club – only 250 S Works will be produced and sold worldwide. Of course, the S Works will make way for the new, completely redesigned Mini Cooper in the year 2000.

Following the great success of the Cooper S Touring and Cooper Sport S (both of which are still available), John Cooper's engineers set about developing the engine to deliver the maximum achievable power whilst maintaining improved torque characteristics and drivability. After hours of research and development from our dedicated and enthusiastic team, new engine enhancements now generate a power output of 90bhp! This incredible 40 per cent increase over the standard engine has been achieved through ingenious improvements in engine breathing, gas flow, fuel delivery and exhaust emission. As Mike Cooper put it, "This is the last engine conversion, this is as far as it goes. We now have the maximum power that can be produced without major transmission mods!"
The S Works is fitted with a new, larger valve, fully-port cylinder-head, polished and gas-flowed with larger inlet valves. In addition, the car comes with 1.5 roller rockers and the compression ratio is revised to 10.1:1. Fuel pressure has been increased and the injection and throttle bodies matched to suit. The inlet manifold is modified with improved gas-flow and is polished and matched to the head. A totally redesigned air-cleaner box is fitted to improve breathing and a new exhaust system with a specially-designed freestream three branch exhaust manifold and twin upswep exhaust tail-pipes.

Luxuries abound in the new S Works. Apart from extra power, the S Works interior conveys a sense of racing pedigree: special engine-turned stainless steel dashboard (based on the original racing Cooper dash); matching door capping inserts; and John Cooper alloy fittings throughout - door handles, window winders, door pulls and door lock covers right down to the alloy brake and clutch pedals. The dash also houses a superb Alpine CD/radio coupled to a pair of Goodman hi-fi speakers on the rear parcel shelf to pump out your favourite sounds, whatever the era!
The boot and bonnet have exclusive Cooper badging which complements the John Cooper etched stainless steel door sill edgings, white side repeater lenses, Cooper wheel badges and alloy locking fuel-cap. Great attention is paid to every detail, right down to Cooper badged alloy dip-stick and valve caps! Finally, the car has an S Works chassis plate with limited edition number and exclusive red and silver S Works decals plus matching silver pin-striping.

The Cooper S Works can be ordered in a wide range of nine exciting exterior paint colours and four model variations. The standard S Works retains the Mini Cooper's four-speed gearbox, with the addition of body-coloured wheel arches and low profile tyres on the standard 12 inch rims. Of course, the S Works can be ordered with either the five-speed Jack Knight gearbox or the Rover Sports Pack which includes 175 x 50 x 13 tyres on 13 x 6 alloy wheels, body-coloured flared wheel arches and uprated shock absorbers together with two extra driving lamps and three auxiliary gauges. The ultimate S Works combines the Rover Sports Pack with the five-speed gearbox. Whichever option you choose, you will enjoy the very best in Mini Cooper S driving.

S Works specification
- 90bhp engine
- 4 speed gearbox
- 165 x 60 x 12 tyres
- Body coloured wheel arches
- Engine turned stainless steel door sill edgings
- Alpine CD/radio and Goodman speakers
- Alloy John Cooper door furniture
- Alloy brake and clutch pedals
- Locking alloy fuel-cap
- Alloy dip-stick
- John Cooper etched stainless steel door sill edgings
- Twin upswept exhaust tail pipes
- Cooper bonnet and boot badging
- 13 x 6 alloy wheels
- Body-coloured side repeater lenses
- Cooper wheel badges and valve caps
- S Works decals with matching silver pin-stripes
- S Works limited edition numbered chassis plate

S Works + Rover Sports Pack specification
Includes S Works spec plus:
- 175 x 50 x 13 tyres
- 13 x 6 alloy wheels
- Up-rated shock absorbers
- Body-coloured wide wheel arches
- 3 auxiliary dashboard gauges
- 2 extra driving lamps

S Works 5 speed specification
Includes S Works spec plus:
- 5 speed Jack Knight gearbox
- S Speed leather gear knob

S Works 5 speed + Rover Sports Pack specification
Includes S Works spec plus both of the above specs.

Performance
- 90bhp @ 6000 rpm
- 0 - 60 8.8 secs
- Max speed 101 mph
- Overall fuel consumption 36 mpg

All performance output figures John Cooper Garages
Cooper S Touring

The 1999 Cooper S Touring and the Cooper S Sport 5 are available directly, and exclusively, from John Cooper Garages. These two distinctive models are as exciting to drive as the Cooper S was in the 1960s. Moreover both cars possess many of the modern safety features which were not available 40 years ago: driver's air-bag, pre-tension seat-belts, high strength steel door-beams plus a host of additional equipment as standard. The latest Cooper S admirably fulfils all the criteria demanded of a modern car.

Both the Touring and the Sport 5 benefit from the latest developments made to the renowned 'A' Series engine. With twin-point fuel-injection and many engineering advancements, the 1999 Mini Cooper S stands as a truly remarkable achievement in small-car packaging. John Cooper Garages is proud to boast a power output exceeding 85bhp and a torque figure over 20 per cent greater than the standard Mini Cooper. Improvements have also been made to the handling and suspension of the car to match the substantial increase in engine performance.

Although the 1999 Mini Cooper S Touring shares the same powerful 85bhp engine as the Sport 5, this model retains the Cooper's four-speed gearbox with its 2.7 final drive. Whilst this ensures smooth, effortless long-distance driving, the increase in torque guarantees a fast getaway when required. The alloy wheels are fitted with 165 Dunlop low profile tyres that make the handling electric.

To the Cooper S Sport 5 we have added a Jack Knight five-speed helical gearbox. As supplier of gearboxes to the Cooper Racing Teams, our valued relationship with Jack Knight is one which has spanned many years. Fitted as standard to this model, the quality and reliability of this gearbox has been proven through improvements made over
Cooper S Sport 5

many years of testing. Once on the road the extra power, combined with this five-speed gearbox, promises a thrill a minute. Of course our Sport 5 is fitted with Rover's Sports Pack with its massive 175 x 50 x 13 tyres and 13 x 6 alloy wheels.

Along with the luxury walnut dashboard, the 1999 Cooper S comes with many other features as standard, luxury front reclining seats fitted with a tilt-forward mechanism allow easy access to the rear, leather steering wheel, wood door cappings and pulls grace the interior whilst stainless steel door sill edgings etched with the John Cooper name and John Cooper alloy door furniture ensure the sporty exterior is carried through to the interior.

Our Cooper S Sport 5 and Cooper S Touring cars can be ordered in any one of nine exciting colours. Standard Monaco cloth trim gives a light and airy feeling to the car. But as an option, you can choose either the racy black leather seating or one of the range of classic leather colours. (Please ask our Sales Team for the complete range of exterior and interior colour options.)

Sport 5 Spec
- 85bhp engine
- 5 speed gearbox
- Rover Sports Pack includes 175 x 50 x 13 tyres
- 13 x 6 alloy wheels
- Upgraded shock absorbers
- Body coloured wide wheel arches
- 3 auxiliary dash gauges
- 2 extra driving lamps
- Walnut interior fittings
- Alloy door furniture
- Alloy fuel-caps
- Stainless steel door sill edgings
- Cooper valve caps
- Alloy dip-stick
- Cooper bonnet and boot badges
- SP boot badges
- Chassis plate
- Cooper S Sport 5 side decals
- 5 Speed leather gear knob

Performance
85bhp @ 5500rpm
0 - 60mph 9.65secs
Max speed 97mph
Overall fuel consumption 36.5mpg
Retro Conversions

5 Speed Gearbox

MCC 400

Jack Knight, famous for his engineering skills during the 1950s and 1960s, built many gearboxes and other parts for the Cooper Formula Racing Team. Therefore, we are proud to offer the JK 5 speed helical gearbox, complete with final drive. As an option for more powerful conversions, you may specify the straight cut version.

Quick Shift

MCC 303

Short-throw gear lever for those more accurate gear changes.

Oil Cooler Kit

MCC 517

Oil cooler kit for injection Mini Cooper. (Available for carburettor Cooper, MCC 516. Not available for models '97 →)

Right Hand Tank

MCC 592

Manufactured in light alloy, these tanks come complete with fitting kit and locking fuel-cap. This tank is for carburettor cars only and may be supplied mail order. For injection cars we can supply and fit only. Please ask for details.

John Cooper conversions are renowned for quality and reliability. Our retro conversions are available for all Cooper models from 1990 onwards. All conversions are thoroughly tried and tested and will enhance the Mini Cooper driving experience.

For Carburettor Coopers '90 - '92

The Cooper S Pack

MCC 1275 ND

Open up the bonnet of a Cooper fitted with the S pack and instantly you will notice the similarity with the original Cooper S of the 1960s. Our exchange performance cylinder head, new performance LCB exhaust manifold and system together with twin 1.25" SU carburettors and authentic air-cleaner achieves 77bhp. An alloy rocker cover is included as are Cooper S side decals. (Available for 1275cc 1990-1992 carburettor models.)

For Injection Coopers '92 - '97

Cooper ‘Si’ Plus

MCC 1275 STS

An evolution of our ‘Si’ Pack with a boost in power to 77bhp. This is achieved with larger inlet valves fitted to the polished and ported cylinder head and the addition of high-lift valve rocker assemblies. An oil cooler kit is also included together with Cooper S decals and authenticity chassis plate. (Available for 1275cc 1992-1996 models.)

82bhp Cooper S Kit

MCC 1275 SD

An evolution of our original S Kit, with a boost in power to 82bhp. This is achieved with larger inlet valves fitted to the polished and ported cylinder head and addition of high-lift valve rocker assemblies together with alterations in induction, fueling and management systems. An oil cooler kit is also included and Cooper S decals and authenticity chassis plate. (Available for 1275cc 1992-1996 models as a supply and fit option only. Not shown.)

86bhp S Works Upgrade

MCC 1275 SR

Should you be fortunate to have already had the 82bhp kit fitted, our S Works upgrade will lift your power to 86bhp. (Available only as a supply and fit option and for cars that have already had our 82bhp S conversion fitted. Not shown.)
& 1999 Conversions

For Injection Coopers '97 onwards

1997 Cooper S Kit
MCC 1275 TT
As fitted to our 1999 Mini Cooper S Touring and Sport 5 models, this engine performance kit increases power output to 85bhp. Available as a supply and fit option only, the kit includes larger valve, fully ported 5 stage cylinder head, high performance exhaust, improved fuelling and induction plus many more features. For information on performance please see details of the Sport 5 and Cooper S Touring on pages six and seven. (Not shown)

1999 Conversions

Our latest S Works engine conversion is available for your standard Mini Cooper (twin-point) as fitted to our new 1999 Cooper S Works model. This engine conversion kit is the last word in performance tuning for the current Mini Cooper (available only for twin point Mini Coopers, 1997 models onwards). Performance is increased to an amazing 90bhp, which is 40 per cent up on the standard car's power output. An increase in torque is also achieved whilst drivability and fuel consumption have not been compromised.

90bhp 'S works' Conversion
MCC 1275 SW
This conversion is available for your standard Mini Cooper twin-point. Many components are altered, exchanged and modified to make this our most exciting conversion ever. Only available as a supply and fit option at John Cooper Garages (available for all twin-point models '97 – ).

90bhp 'S works' upgrade
MCC 1275 UP
For the lucky people who currently own a Cooper S Touring or a Cooper S Sport 5, this engine conversion will lift your current 85bhp to the S Works 90bhp output. Again, only available as a supply and fit option from John Cooper Garages, the extra bhp does make a difference! (Available only for Cooper S Touring, Cooper Sport 5 models and cars with our Cooper S kit MCC 1275TT fitted).
Cooper Specials

Research and Development continues to play a vital role at John Cooper Garages. As well as the new Cooper S Works and other models, John Cooper Garages are proud to have worked on some very special Minis during 1997/8. For Rover we produced the Mini Limo especially for their stand at the Frankfurt Motor Show, this was the ultimate Mini Cooper, packed with innovative ideas and sumptuously luxurious. Some of the features which were fitted to the car are listed below.

During 1999, we are planning to unveil the latest version of H15 FUN, similar to the Mini Limo but lighter and much, much faster! At John Cooper Garages we can produce bespoke cars for the discerning owner and will continue to do so well into the next century.

Listed below are a few examples of work already carried out by our experienced team.

- All Engine Conversions: In addition to the engine packages already mentioned, John Cooper Garages undertake special projects for those wishing to obtain even greater power from their Mini Cooper.
- Full colour resprays: Performed by experts using the latest in high-tech equipment, we offer flat, metallic, or pearlescent paint finishes.
- Retro bumpers as Mk I and Mk II 1960s Cooper
- Custom-built dashboards and Interiors
- Built-up sound systems
- Leather-bound Wilton carpets
- Lambswool rugs
- Self-closing/locking systems
- Headlinings in exotic fabrics
- Air-conditioning
- Electric seating
- Carpeted boot area
- Retro styling
- Electric sunroofs (metal, glass or fabric)
- Uprated suspension systems
- Alarm systems
- Satellite navigation systems.
Handling & Suspension

John Cooper Upgraded Brake System
MCC 543
The John Cooper upgraded brake system will reduce braking distance when fitted to your Mini Cooper. It includes new alloy four pot John Cooper brake callipers, vented discs, brake pads and rear alloy brake drums.

MCC 548
Above brake system minus rear drums.
MCC 391
One pair alloy rear drums.

Adjustable Ride Height Kit
MCC 293
Allows you to choose a lower ride height for your car with a simple turn of a key, comes complete as front and rear kit. Enhances handling and overall appearance.

Tyres for Mini Coopers
MCC 126
165 60 x 12
Developed by Dunlop for the Cooper. Available through John Cooper.
MCC 694
175 50 R13 - Dunlop 2000 tyre
MCC 280
175 50 R13 - Dunlop 3000 tyre

John Cooper Steering Wheels
John Cooper steering wheels are made to exacting standards by the famous Moto-Lita company. Each wheel sports the John Cooper signature.
All wheels are 13" and come complete with fitting boss and polished Cooper centre cap. (Bossons for earlier Coopers may also be specified.)

(Not suitable for Mini Cooper models '97 fitted with driver's airbag.)

Wood Dished
MCC 258
Leather Dished
MCC 6
Wood Flat
MCC 81

Locking Wheel Nuts
MCC 234
Set of four locking wheel nuts to protect your standard Mini Cooper alloy wheels.
Leather Interiors

John Cooper car seats and interiors offer the ultimate in car comfort, luxury and style. We now offer a range of leather panels, together with top and bottom dash rolls, made from top quality leather to match your 1999 Rover black, stone beige or classic leather seating.

Recaro Leather Seats

John Cooper Garages are very pleased to act as agents for Recaro. Such specialist seats are normally only associated with expensive, high-performance cars. Now they are available for your Mini Cooper! Many seat options are available, with different cloth covers or leather. Contact the Parts Hotline for more details of these exclusive Recaro seats.

Leather Recliner

MCC 197

Made from the finest quality leather hides, these seats come complete with subframes and adjustable headrests. Available from stock in black, they can also be ordered in a wide variety of colours and with seat piping as an option. All Cooper leather recliner seats have the Cooper logo stitched into the seat for authenticity.

S WKS

S 5 WKS
Alloy & Stainless

Stainless Steel Dash Kit
MCC 594
Engine-turned stainless steel dash as original Cooper racing dashboards. (Sold as exchange unit for standard Cooper dashboard but may be ordered outright; ask for details.)

Stainless Steel Door Cappings
MCC 596
Set of four door cappings inserted with engine-turned stainless steel to match dash.

Alloy Door Handles
MCC 522
Detailed and styled with great attention these handles are a classic piece of design. Sold as a pair engraved with John Cooper signature.

Alloy Window Winders
MCC 507
Engineered for ease of operation and with enamelled Cooper badge. Sold as a pair engraved with John Cooper signature.

Alloy Door Pulls
MCC 524
As fitted to many of today's Mini racers, ready to fit to your car. Sold as a pair engraved with John Cooper signature.

Alloy Door Lock Covers
MCC 523
Lightweight and polished to a mirror finish these are a perfect replacement for original standard covers. Sold as a pair.

Steering Lowerer
MCC 504
To improve driving position, complete with new shear bolt. (Not suitable for air bag models)

Seat Adjuster Brackets
MCC 21
Manufactured by John Cooper Garages from strong, lightweight material, engraved with John Cooper signature.

For that racing look, John Cooper alloy fittings, many bearing the famous John Cooper signature, are a real must for every Mini Cooper enthusiast. Our range is all manufactured to exacting standards from strong lightweight materials.

Stainless Steel Dashboard and Door Cappings
Our new, hand-made S Works stainless steel dashboards and door cappings are now available as a special order. Styled around the original racing Cooper dashboard, they offer the racing alternative to the luxury walnut interior. Additionally, paint finishes for the instrument pod on dash and door cappings may be specified. Please enquire for details.

Alloy Locking Fuel-cap
MCC 527
Forged from lightweight alloy with a beautifully polished finish, this fuel-cap epitomises the early Le Mans racers. A quick-release flap reveals the security lock. Complete with two sets of keys.

Alloy Gear Knob
MCC 526
Complete with enamelled Cooper badge with a highly polished finish.

Oil Dipstick
MCC 542
Stainless steel dipstick with anodised alloy knob with inset Cooper badge.

Alloy Brake, Clutch, Throttle Pedals
MCC 544
Made from lightweight alloy material, shaped for perfect control, engineered through race car experience; complete set brake, clutch and throttle pedal, all with John Cooper signature. (For all Mini models pre '96)

MCC 626
As MCC 544 but not including throttle pedal. Suitable for all Mini Cooper models '97 onwards.

Door Sill Edgings
MCC 525
A finishing touch, makes a classy entrance to your car. Made from stainless steel and etched with John Cooper name. Sold as a pair.

Cooper Valve Caps
MCC 689
Set of five stainless valve caps with Cooper centre logos, a finishing touch.

Cooper Wheel Badges
MCC 511
As used on original Cooper racing cars. Supplied as a set of four, ready to fit.
Walnut Interiors

Walnut Cappings
MCC 194B
Complete set of four walnut front and rear cappings. (Available for all Mini and Cooper models.)

Walnut Gear Knob
MCC 196
Comes with MK IV Mini Cooper logo. (Available for all models.)

Walnut Dashboards
Fit pre '97 models only
MCC 194A (LHD MCC 256)
Walnut dash for cars with three instrument pod.

Mini Cooper Video
MCC 209
VHS format video, everything you'll want to know about Minis.

F1 Artist Prints
MCC 681
Limited edition print of Sir Jack Brabham at the 1959 Monaco Grand Prix painted by Nicholas Watts. It has been personally signed by the artist, Sir Jack Brabham and John Cooper. Measuring 63.5cm x 82.5cm.

Monte Carlo Mini Artist Prints
MCC 680
Limited edition print depicting the Monte Carlo Mini painted by Nicholas Watts and signed by the artist, John Cooper and Paddy Hopkirk. Measuring 63.5cm x 82.5cm.

Drinks Coasters, Duster & Cloth Badge
MCC 283...Drinks Coasters (set of 6)
MCC 58...Duster
MCC 148...Cloth Badge

Mini Maglite AAA Torch
MCC 65
Black Mini Maglite with Cooper Text logo, in presentation case printed with Cooper laurels.

Zippo, Pin Badge & Leather Key Fob
MCC 204...Zippo
MCC 51...Pin Badge
MCC 54...Leather Keyfob

The Cooper Yo-Yo
MCC 91
A must for any discerning Cooper enthusiast or offspring! Nickel-plated with Cooper roundel on sides.
Cooper Coffee Mugs
MCC 284
A boxed pair of fine English bone-china coffee mugs, one with a dynamic Cooper S Sport 5 illustration, the other a flying Cooper S Works illustration.

Cooper Umbrella
MCC 76
Featuring British racing green and white panels, this strong umbrella belongs on your Mini rear parcel shelf.

Cooper Cars Book
MCC 52
This award-winning book by Doug Nye charts the whole history of Cooper's achievements from the beginning in single seaters, winning the F1 World Championships and, of course, the racing Minis of the 1960s. A new revised edition, including the Mini Cooper up to the present day, will be available in summer 1999.

Grand Pen/ Grand Ballpoint
MCC 60......Grand Ballpoint
MCC 61......Grand Fountain Pen
Futuristic fountain pen and ballpoint in vibrant blue translucent plastic with Cooper branding on the side.

Tax Disc Holder
MCC 55
Printed with the Cooper logo and telephone number.

Rear Window Sticker
MCC 56
Tells everyone following you that you're driving the real thing, from the actual garage which offers authentic parts and servicing!

Cooper Pen Set
MCC 62......Fountain pen/ballpoint
Stylish and elegant pen set comprising fountain pen and twist action ballpoint in blue translucent plastic.

Business Card Holder
MCC 77
Silver plated business card holder with Cooper laurels engraved on the lid.

Cooper Window Sticker Pack
MCC 551
Pack of 12 window stickers, designed to amuse and possibly enrage other drivers!
...and Cooper Originals

All clothing is available in Medium, Large and Extra Large sizes. Please state M, L or XL when ordering.

Black Sweatshirt
MCC BS  M/L/XL
Long-sleeved, good weight, black sweatshirt with embroidered Cooper laurels on chest.

Felt Baseball Cap
MCC 9947
Baseball cap in felt with suede peak and leather adjuster strap. Cooper laurels embroidered on front.

Traditional Polo Shirt
MCC PS  M/L/XL
Dark blue polo shirt with embroidered Cooper laurels on chest.

Black/White T-shirts
MCC TB  M/L/XL
MCC TW  M/L/XL
T-shirts with Cooper laurels printed on left side, showing front and rear.

Strong Consultancy Bag
MCC 64
Rugged black document case with many pockets and embroidered Cooper laurels.

Corduroy Baseball Cap
MCC 9949
Baseball cap in dark blue soft corduroy with beige suede peak and red Cooper text on back.
COOPER S • CONVERSIONS • ACCESSORIES • PERSONAL ACCESSORIES

Colour T Shirts
MCC TS5 M/L/XL
Colour T-shirt with an illustration featuring Cooper Sport S on the front.
MCC TSW M/L/XL
Colour T-shirt with an illustration featuring Cooper S Works on the front.

Dress Shirt
MCC DS M/L/XL
Dress Shirt in polished cotton. Toned Cooper roundel embroidered on pocket and Cooper text on back loop, complete with 'Cooper Originals' buttons.

Lightweight 'Harrington' Jacket
MCC HJ M/L/XL
Casual retro style jacket with 'Cooper Originals' buttons, subtle Cooper roundel on pocket cuffs and Cooper text on back loop. Lightweight and unrestricted, this makes a very comfortable driving jacket.

Long Sleeve Ribbed Jersey Shirt
MCC JS M/L/XL
'Grandad' style long-sleeved body fit shirt in grey marl with embroidered toned Cooper roundel.

Fleece
MCC FL M/L/XL
Warm winter fleece, blue lower half, cream top half with 'Cooper Originals' label branding front and rear.
Car Sales

John Cooper Garages can offer you a complete, on-the-road package for a new Cooper S, including a full year’s comprehensive warranty. However you may wish to choose from our extensive range of high-quality, previously-owned Mini Coopers and Mini Cooper S, stocks change regularly. All these cars are thoroughly serviced and valeted before delivery and are covered by nationwide mechanical warranty. Part exchanges are welcome against new and pre-owned car sales. We are licensed credit brokers, and insurance quotations may also be arranged. We pride ourselves on our excellent and personal service.

We Welcome Worldwide Enquiries!

As demand for our cars is international, we have the experience and expertise to organise their export anywhere in the world.

John and Mike Cooper always welcome UK and overseas visitors keen to experience the historic atmosphere that is John Cooper Garages.

Car Hire

John Cooper Garages has a fleet of the latest Mini Cooper and Cooper S models with or without sports pack, available for weekend or weekly hire. We also offer unlimited mileage packages. Please enquire for details of our competitive rates.

Sales & Services

Servicing

We have a highly-qualified team of technicians at our Mini Cooper Centre, dedicated to providing full MoT and servicing. With the latest in computerised equipment, a low-bake oven for excellent paint finishes and a complete range of Mini spare-parts and accessories, we can provide for all your Mini servicing needs. Loan Coopers are available by arrangement and, to help reduce motoring costs, we can also offer budget servicing schemes to all our Mini Cooper customers.
